

Bundle up and grab your toboggans!

Visit Toronto's top toboggan hills

It's that time of year again, when the city is blanketed in snow. So break out your toboggans and go get your sled on! You and your family can spend time sliding in the lush powder that covers Toronto every winter by hitting up one of these amazing toboggan hills!

CEDARVALE PARK **443 ARLINGTON AVE.**

If you're into giving your family a history lesson while braving the cold for some outdoor fun, Cedarvale Park is the perfect toboggan hill for you! Ernest Hemingway frequented the park in the 20's for walks, thinking about his next masterpiece no doubt. The park has several different sized hills with the main one being wide and perfectly inclined for a safe yet speedy ride to the bottom.

CRESTVIEW PARK **25 SENECA HILL DR.**

This unique spot is located between two schools in the north suburbs of the city, so you

know you'll have friends to sled with! The park has an incredible view of the downtown skyline so you can bask in the visual glory of your city while rushing to the bottom of the hill. Not too steep, but with a good height, the hill itself gives you the perfect ride and if you want to sled at night? No problem! The park is lit up for late night sledders who couldn't make the daytime run.

LITHUANIA PARK **155 OAKMOUNT RD.**

On the western side of the city you have Lithuania Park, tucked away just north of Bloor Street on Keele Street. The park boasts one of the fastest hills around with a steep incline and giant clearing at the bottom for ample stopping room. There is even a baby hill for those not daring enough to brave the monster. It really is a hidden gem when it comes to toboggan hills in the city, considering most of the visitors to

this hill are local to the area.

SIR WINSTON CHURCHILL PARK **301 ST. CLAIR AVE. WEST**

For the daredevil in the family, Sir Winston Churchill Park is the perfect toboggan spot. The hills, although not very tall, offer incredible speed with one of the steepest inclines in the city. Since the height of the hill isn't overwhelming, the climb back to the top won't be either! So sliding down over and over again is no problem.

WITHROW PARK **725 LOGAN AVE.**

Withrow Park, located in the Riverdale area, is a small hill that packs a punch with its steepness.

If your family is interested in being a little more courageous, this is the hill for you! It will zip you to the bottom in a flash, and is even equipped with a set of steps up the side of the hill for an easy climb back to the top!
